Losing Momentum Binary Options Strategy

Price Action Momentum

There are different ways to trade momentum and the two main ways are:

- Using Price Action
- Indicators

The foundation of Price Action Momentum is the Candlestick.

How do you see Momentum in a Candlestick?

1. The length of the candlestick.
2. The Opening and Closing Prices.

How To Read Candlestick Momentum

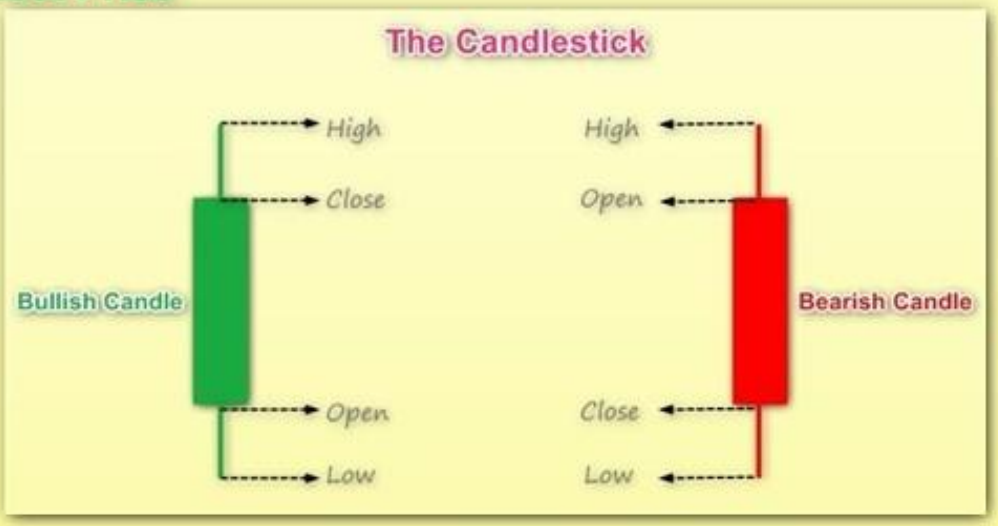
Here's are a few facts:

- Every Candlestick you see on charts, from the 1 minute timeframe up to the monthly timeframe tells you a story about Momentum.

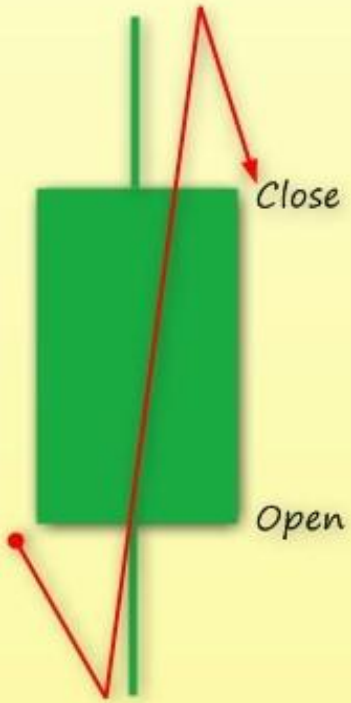
- Every candlestick tells a story as to who was winning the battle between Bulls and Bears.

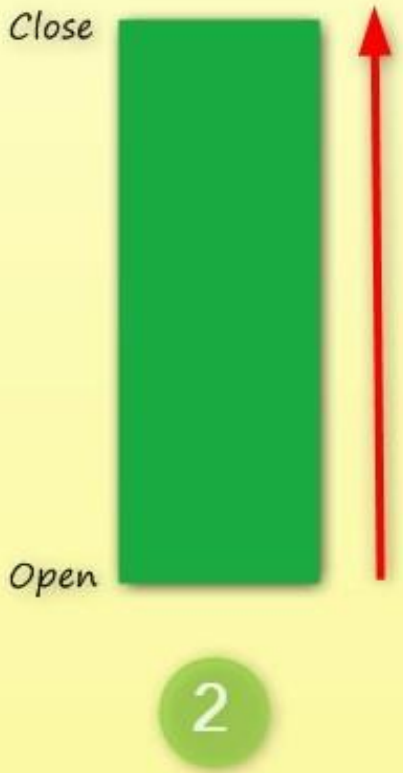
When a candlestick closes, it gives these 4 information instantly:

1. Opening Price
2. Closing Price
3. Lowest Price
4. Highest Price

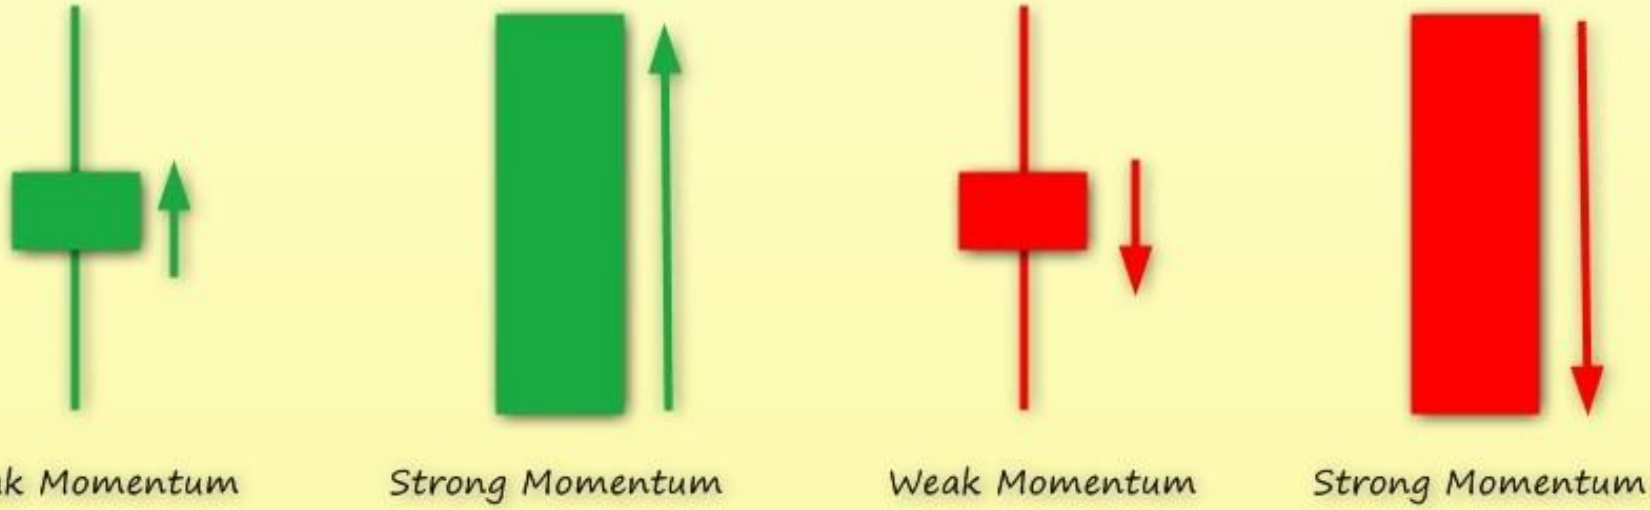


Which one of these Candlestick has more Momentum? Candlestick 1 or Candlestick 2?



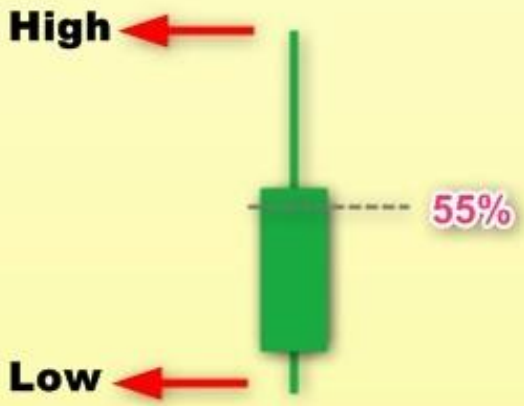


Candlesticks showing Different levels of Momentum

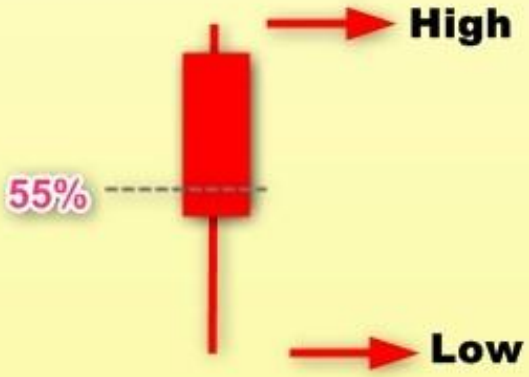


Rules of Momentum

A candlestick continue to Lose its Momentum and Pulls back to 50% of its range, Can start to consider the Bulls or Bears may be Losing their Battle in that particular Timeframe where that Candlestick was formed:



LOSING CONTROL



Bulls Losing Control

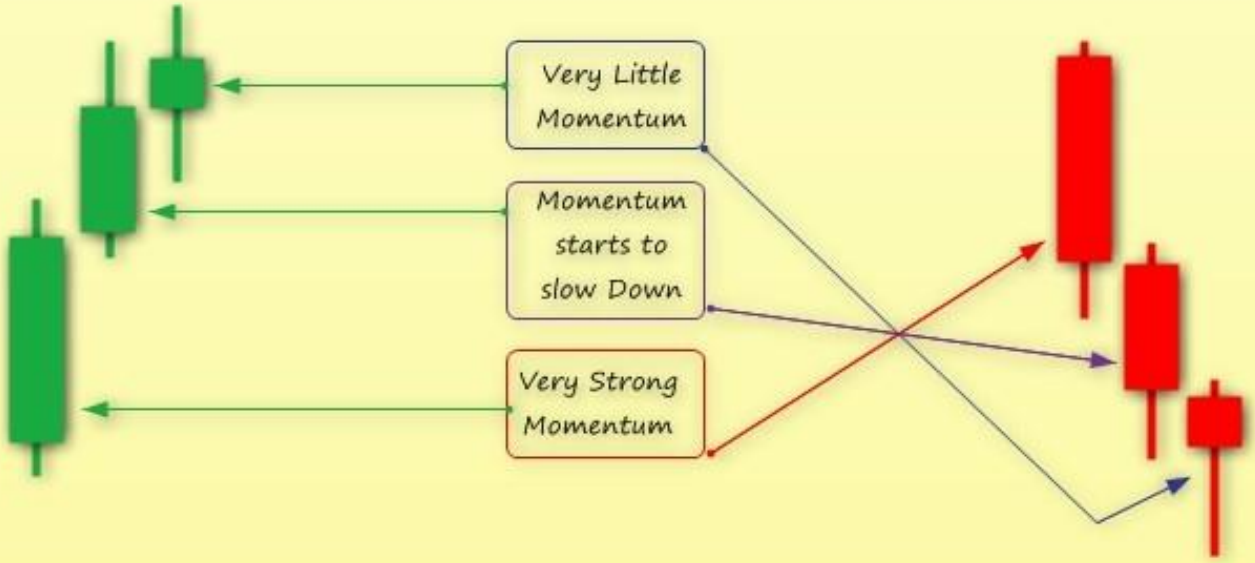
Bears Losing Control

Simple Ways To Predict Price Action Momentum

Momentum Trading Signs

Decreasing Bullish Momentum

Decreasing Bearish Momentum



Development/Formations of LMBO Setup

LMBO Setup consist on three candlestick. 1st Candle wick/Tail acting as Support & Resistance 2nd & 3rd candle real bodies must close under the 1st candle wick/Tail then take position as per LMBO Bullish or Bearish Setup.
